MESSAGE

Our Government is committed to the vision of Inclusive Development for All and under the leadership of Hon'ble Prime Minister we have been working for "Sabka Sath - Sabka Vikas".

Health care is a priority item for our Government and the Department of Pharmaceuticals under my Ministry, is mandated to ensure that essential medicines are available at controlled prices. I am glad to know that National Pharmaceutical Pricing Authority (NPPA), an independent body of experts under my Ministry, has so far fixed ceiling prices of 509 formulations included in the National List of Essential Medicines (NLEM) which is notified under the first schedule to the Drug (Prices Control) Order (DPCO), 2013. I am also glad to know that since May, 2014, NPPA has notified prices of 251 formulations (i.e. 69 Ceiling Prices, 76 Retail Prices and 106 prices of Non-Scheduled formulations) under DPCO 2013 which has resulted into an estimated benefit of Rs.558 crore to the end consumers. These formulations/drugs are used in treatment of various diseases including cancer, diabetes, HIV, AIDS, heart diseases, etc.

While NPPA has been fixing the ceiling prices and monitoring their availability as also enforcing the prices, it is necessary to involve the Common Man in building awareness amongst them. I am happy that for the first time under DPCO 2013, NPPA has prepared the present Compendium of Ceiling Prices of Essential Medicines. I am sure this Compendium will be helpful to all the State Governments, State Drugs Controllers, NGOs and Civil Society Organizations and the Consumers by correctly informing them about the ceiling prices of essential medicines.

MESSAGE

"Affordable medicines for All", is an important element of the vision of our Ministry of Chemicals, & Fertilizers. National Pharmaceutical Pricing Authority (NPPA) under the Department of Pharmaceuticals of this Ministry is mandated to implement and enforce the provisions of Drugs Price Control Order (DPCO). The National List of Essential Medicines (NLEM) has been incorporated in the 1st Schedule of the DPCO, 2013 and NPPA has to fix the ceiling prices of Scheduled medicines as also monitor the price movement of scheduled as well as non-scheduled medicines.

I am glad to note that NPPA has so far fixed the ceiling prices of 509 scheduled medicines out of 628 net medicines included in the 1st Schedule of DPCO, 2013 and has also compiled a compendium of the ceiling prices of essential medicines amongst stakeholders. I am sure all will find this Compendium useful and informative.

Dated: 26th February, 2015

I am glad to note that National Pharmaceutical Authority (NPPA) is publishing a "Compendium of Ceiling Prices of Essential Medicines" fixed by them under the provisions of Drugs Price Control Order (DPCO), 2013.

NPPA is mandated to implement and enforce the provisions of DPCO, 1995 and 2013 in accordance with the power delegated to it, which inter-alia includes, fixation of ceiling prices of NLEM medicines included in the 1st Schedule of DPCO as also to monitor the availability and price movement of both Scheduled as also Non-Scheduled Drugs. I understand that NPPA has so far fixed the ceiling prices of 509 essential medicines out of 628 net medicines included in IPCO, 2013. It is also monitoring the availability and also price movement enforcing the ceiling prices of these essential medicines. The present, Compendium being published by NPPA for the first time under DPCO, 2013 has consolidated all the information relating to ceiling prices of essential medicines fixed by NPPA, Therapeutic Group-wise which will be of immense use to all stakeholders, be they pharmaceutical companies, stockists & chemists, State Drugs Control Administration and Consumer Organizations, or end consumers.

I appreciate this effort of NPPA and extend my best wishes to the organization.

PREFACE

The National Pharmaceutical Pricing Authority (NPPA) is mandated with the task of implementing the Drugs (Prices Control) Order (DPCO) 2013, which aims at making available all essential and lifesaving medicines to all at affordable prices through the instrumentality of price control. Drug price control is not something peculiar to India, but one that is prevalent in most countries, including many developed countries, though the methodology of price control may differ from one country to another.

2. Unlike the DPCO 1995, which adopted a cost-based approach for price fixation in respect of scheduled drugs, the DPCO 2013 adopts a market-based approach for price fixation. Second, the National List of Essential Medicines (NLEM) 2011 is adopted as the primary basis for determining essentiality, and is accordingly incorporated in the First Schedule to the DPCO 2013, which constitutes the list of scheduled medicines for the purpose of price control. Third, the price control is applied to specific formulations with reference to the medicine (active pharmaceutical ingredient), route of administration/ dosage form and strength as contained in the First Schedule.

3. Under the market-based approach, the ceiling price of a scheduled drug is determined by first working out the simple average of price to retailer (PTR) in respect of all branded-generic and generic versions of that particular drug formulation having a market share of 1 percent and above, and then adding a notional retailer margin of 16 percent to it. The maximum retail price (MRP) for that particular drug formulation must not exceed the notified ceiling price plus applicable local taxes.

National Pharmaceutical Pricing Authority

3rd Floor, YMCA Cultural Centre
1 Jai Singh Road, New Delhi 110001

4. All the existing manufacturers (including importers and marketers) of a scheduled formulation, selling branded or generic or both versions of that formulation at a price higher than the ceiling price plus local applicable taxes are required to reduce it to at least that level. At the same time, all existing manufacturers (including importers and marketers) of that formulation who are selling it below that price are required to maintain their existing MRP. Implementation of the price notification is to be communicated, in Form-V of Schedule II to the DPCO 2013, to all dealers, State Drug Controllers and NPPA immediately. Also the current price list of scheduled drugs has to be displayed by every dealer and retailer.

5. The ceiling price fixed for each scheduled formulation becomes operative and legally enforceable from the date on which the price is notified in the Gazette of India Extraordinary. In other words, the medicine cannot be sold at an MRP exceeding the ceiling price plus applicable local taxes from the date of price notification. However, for stock manufactured or available in the market prior to publication of the ceiling price, a grace period of 45 days is available to facilitate recall and/ or reprinting of the revised MRP on the label of the medicine in accordance with the notified ceiling price. But under no circumstances does it allow sale of a medicine at the pre-revised price even during the 45-day grace period, as the same stock keeping unit (SKU) of a particular medicine should not be offered to the consumer at a price exceeding the price specified in the current price list or the price indicated on the label of the medicine pack, whichever is less. Similarly, all batches manufactured after the price notification must necessarily conform to the notified ceiling price.

6. The notified ceiling price with respect to each scheduled formulation is valid for a period of five years from the date of original price notification, but subject to annual revision to be notified by NPPA which would be effective from the first day of April every year as per the annual wholesale price index (WPI) notified by the Department of Industrial Policy & Promotion with respect to the previous calendar year. The revision may mean increase or decrease in ceiling price depending upon whether the WPI is positive or negative. The manufacturers (including importers and marketers) are free to avail themselves of the annual revision in case of increase, without obtaining prior approval of the Government, but they are required to exercise their decision in this regard within 15 days of such revision and report to the NPPA in Form-II of Schedule II to DPCO 2013 failing which it shall be construed that the company has opted for non-revision of MRP and the concerned manufacturer shall

National Pharmaceutical Pricing Authority

3rd Floor, YMCA Cultural Centre
1 Jai Singh Road, New Delhi 110001

be liable to deposit the amount charged over and above the pre-revised MRP, along with interest from the date of overcharging. Further, they shall be bound to decrease their MRP correspondingly in case of decrease in the ceiling price due to negative WPI.

7. Non-compliance with the notified ceiling price or, in other words, the MRP breaching ceiling price plus applicable local taxes would be tantamount to overcharging the consumer, which is liable to be recovered along with interest thereon from the date of overcharging. The excess collection on account of overcharging along with interest is recoverable as arrears to land revenue under the Public Demand Recovery Act.

8. Further, non-compliance of price notification issued by NPPA, depending upon the gravity of the offence, could also attract prosecution under the Essential Commodities Act (ECA), 1955. Section 7 of the ECA 1955 provides for imprisonment for a term which shall not be less than 3 months, but which may extend to seven years and shall also be liable for fine. Section 9 of the ECA, 1955 makes false statements/ information also punishable with imprisonment for a term which may extend to five years or with fine or with both. Under section 10 of the ECA, 1955, offences committed by companies are punishable, and shall apply to every person who, at the time the contravention was committed, was in charge of, and was responsible to, the company for conduct of the business of the company as well as the company, shall be deemed to be guilty of the contravention and shall be liable to be proceeded against and punished accordingly. Every offence committed under the Essential Commodities Act, 1955 is a cognizable offence.

9. Implementation of the DPCO 2013 is the joint responsibility both NPPA and State Drug Controllers. Accordingly, most State Governments/ Union Territories have duly empowered the State Drug Controller and Drug Inspectors under paragraph 30 (1) of DPCO 2013, which allows any Gazetted Officer of the Central Government or of a State Government, as the case may be, to exercise the power of entry, search and seizure to ensure that the provisions of the DPCO have been complied with. The States which are yet to do this are requested to do so at the earliest. Further, as part of the regular enforcement activity of the Office of the State Drug Controller, on similar lines as done with respect to drug sample testing under the Drugs and Cosmetics Act, 1940 and Drugs and Cosmetics Rules, 1945, every Drug Inspector should be given a monthly target for purchasing scheduled formulations, preferably 5 to 10 samples a month, to verify price compliance, and report

National Pharmaceutical Pricing Authority

3rd Floor, YMCA Cultural Centre
1 Jai Singh Road, New Delhi 110001

price violations for taking necessary action against erring manufacturers, importers, marketers, and dealers (including retailers). The State Drug Controller may compile the monthly reports of individual Drug Inspectors, and submit a monthly consolidated report to NPPA in the following format:-

Sl.No.	Name and address of Manufacturer and Marketer in case of separate entities	Brand Name, if any	Pack Size	Batch No. and manufacturing date	Maximum Retail Price (MRP)	Ceiling Price/unit	Gazette Notification No. and date	Remarks
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

The report should be accompanied with supporting documents such as photocopy of sample pack with MRP, Batch No. and Manufacturing date, Name of Manufacturer and Marketer (if applicable). While collecting samples from the market, preference may be given to those formulations that are of mass consumption; each sample may be procured from 2 to 3 locations in order to get a geographical spread. Finally, the samples collected should correspond to important therapeutic groups in relation to disease burden in the State. This activity should be taken up with utmost sincerity in order to prevent consumer exploitation and protect public interest

10. At present the DPCO 2013 contains 680 scheduled drug formulations spread across 27 therapeutic groups, which effectively comes to 628 scheduled drug formulations if we net those appearing in more than one therapeutic group. As on date, the NPPA has fixed and notified the ceiling prices with respect to 509 scheduled formulations, apart from notification of annual WPI-linked revision whenever due. With regard to the remaining 119 scheduled drug formulations, 17, which are common to both DPCO 1995 and DPCO 2013, are not yet due for revision. With respect to the residual 102 scheduled drug formulations, the NPPA has not been able to fix the ceiling prices due to non-availability of corresponding market-based PTR data, efforts for which are continuously on, and those ceiling prices shall be notified as soon as the said data is available.

11. The Compendium of Notified Ceiling Prices of Scheduled Drugs 2015 has been brought out with the objective of disseminating information related to notified ceiling prices in respect of scheduled drugs, to all stakeholders, particularly consumers and consumer welfare

National Pharmaceutical Pricing Authority

3rd Floor, YMCA Cultural Centre
1 Jai Singh Road, New Delhi 110001

organisations/ NGOs; manufacturers, including importers and marketers of pharmaceuticals products; stockist/ distributors, dealers and retailers; doctors and public health experts; and most importantly enforcement functionaries (NPPA, State Drug Controller and Drug Inspectors) for carrying out monitoring and enforcement activities. Apart from serving as a compendium of notified ceiling prices, it is also expected to help in propagating the NLEM, which is basically aimed at promoting scientific and rational use of medicines that is both clinically-effective and cost-effective.

12. I sincerely hope that all stakeholders will find this compendium extremely useful as a ready reckoner. The enforcement functionaries may find this compendium useful in carrying out monitoring and enforcement activities with regard to price compliance under DPCO 2013. The NPPA has provided on its website an online facility to lodge complaints related to price and availability of pharmaceuticals, which may be used by consumers, NGOs and enforcement functionaries to report cases of overcharging or non-availability of medicines, if any. A soft copy of the compendium is also placed on the NPPA website www.nppaindia.nic.in along with copies of related Gazette of India Extraordinary price notifications in PDF format. Although every effort has been made to maintain accuracy in the compendium, the NPPA shall not be responsible for any error or mistake that may have inadvertently crept into the compendium. The reader is, therefore, advised to refer to the relevant official Gazette notification before taking any action on the basis of this compendium.

(Injeti Srinivas)

DISCLAIMER

The information contained herein is not a substitute to ceiling prices notified in the Gazette of India Extraordinary. For the official version, please refer to the relevant Gazette Notification issued in this regard, which may be accessed from the NPPA website at www.nppaindia.nic.in.
